PICK UP A FREE TREE FROM MOTHER NATURE

More Trees Now saves young trees (saplings) that grow in places where they cannot mature. With volunteers to scoop them out, of multiply them to give away for free from our Tree Hub.

At a new location, they can become fully grown trees or bushes! That can be with farmers, food forests, gardens, or with you! These saplings are a source of sustainable, free planting material. We've collected saplings on our Tree Hub and we will be giving them away for free on !

We have species, for instance

You can pick up a free tree when you
.....
.....

Will you pick up a free tree or bush?

You can! Sign up for our free-tree give-aways by scanning the QR or go to moretreesnow.co/treegiveaways

Want to know more about our method or help us collect and save the excess saplings? Go to moretreesnow.co
